

SkinBase™ · Radio-Frequency Skin Tightening

Collagen Lift™

A warm ceramic wand, for visibly firmer skin

The treatment stimulates collagen, elastin and hyaluronic acid beneath the skin's surface, easing lines and restoring a smoother, firmer contour — with no downtime.

£20 Consultation & patch test

Required 24 hours before your first treatment

*Fully redeemable

from £540

For sagging skin and the appearance of scars or stretch marks.

Eye Rejuve

from £340

Delicate eye-area care to soften lines, lift and tone.

Buttocks & Thighs

from £510

Targets the subcutaneous layer for smoother, defined contours.

Frequently Asked Questions

How many treatments will I need?

A course of six: weekly for six weeks, or twice weekly for three. Maintain every 4–6 weeks; a further course may be suggested every two years.

Is it painful?

No. Heat and speed are adjusted throughout, so the treatment remains comfortable.

What does the wand feel like?

The warm ceramic wand feels soothing, much like a hot stone massage.

When will I see results?

Tightening may be visible immediately, with results continuing to develop over the following weeks.

How long do results last?

Collagen may continue to increase for up to three months after your course; results may last up to two years.
